## "Go Ahead in the Rain"

[*Jimi Hendrix: Rain all day*][2X]

[*Q-Tip: Don't you worry*]

[*Q-Tip:*]

All I wanna do is get down y'all  
Have a ball y'all and freak freak y'all  
Lifeless ventures ain't new boo  
So don't boo hoo, yeah, you too  
Gotta get a grip like culture  
Swoop down, swoop down like a vulture  
The rhythms will lurk into people  
All funk ain't created equal  
Lookin for the beat to rupture  
Like the rapture, gotta capture  
Don't let the storm of life scare ya  
Get funky, let me prepare ya  
For the days of grimness and oppression  
A yo bro, here's your lesson  
Even though the rain starts pourin  
Start reachin, start soarin  
Don't stop, if you do, you're stallin  
Rhythm savior, hear ya callin  
Instrumental to be freaky  
Go ahead in the rain and you'll see

[*Q-Tip:*]

Can't we make you see  
I mean, the fact that is the key, I mean  
Devoted to the art of movin butts, so get on up and...  
Think about what's yours  
I mean your culture and your laws  
I mean, I label you a sucka  
If you're dumber, just stay dumber, but...  
Stay in line and keep groovin  
If it's movin, if it's soothin  
Don't let a little thing like rain keep you unda  
Or the fun-da, look at wonda  
Stomp til your soul is lifted  
Get with it, rhythm's with it  
Get inside the groove and get nasty  
Funky nasty, crazy classy  
Money is a first on the list here  
It's the good time, it's the good cheer  
If you got the ride then ride it  
Don't hide it, provide it  
Drop, drop, drop down the pants, shake your fanny  
Cuz it's handy, not an Annie

Rock to the roll with the hair down  
Get the lowdown, rhythm showdown  
The simple explanation is nada  
Make it hotter, thanks, de nada  
If you wanna hear what I'm sayin  
Clean your ears and just come on and groove
